Commissioner for Patents

The request for reconsideration of the IDS previously submitted on May 8th, 2002 is improper for failing to include therewith a submission of a new 1449. It appears that the previous examiner's acceptance of the references previously listed on the IDS of May 8th, 2002 was resultant of those not being included with the submission of the applicant's 1449 statement. Submission of the references after the previous examiner's consideration and propose a reconsideration of the IDS is improper because the original 1449 was deficient with regards to the inclusion of those specific references and therefore not proper according to the criteria of 37 cfr 1.97-1.98.
